

CANADIAN FARM BUILDERS ASSOCIATION

WHO WE ARE:

Join the CANADIAN FARM BUILDERS ASSOCIATION

The CANADIAN FARM BUILDERS ASSOCIATION promotes standards, quality, and innovation in the agricultural building field. Whether you're a farm builder, engineer, building official, or supplier of products and services in support of farm building, CFBA provides numerous opportunities for growth, education, and networking.

The CFBA was established in 1980 by a group of farm building contractors with the aim of establishing uniformity and standards in the industry. Since then, our membership has grown to include various stakeholders within the agricultural and construction sectors. We believe that quality is a result of staying up-to-date with building codes, construction practices, and environmental requirements.

What We Do:

At CFBA, our primary goal is to foster the safety, knowledge, sustainability and fairly earned success of our members.

We achieve this by:

- Promoting and advancing structurally sound, sustainable, and efficient farm building in Canada.
- Encouraging high-quality work and fair dealings by our members.
- Elevating farm structure standards through research & education.
- Representing our membership in legislation, safety, & labour matters.

Why Join the CFBA?

Education and Information: As a member, you gain access to ongoing educational opportunities, advisories, and regulatory updates. Stay informed about new legislation, building code updates, new products, industry innovations, and changes that impact your business.

Networking and Collaboration: Connect with the thriving farm building community, including builders, suppliers, tradespeople, technical and government representatives. Build relationships, discuss shared concerns, exchange ideas, and expand your professional network.

Recognition and Branding: By participating in our Awards competition, you have the chance to showcase your work and gain credibility in the industry. CFBA has an excellent brand within the industry, the supplier group, and government agencies.

Industry Advocacy: Be part of an association that advocates for and strengthens the farm building industry. Stay competitive by being knowledgeable and aware of the topics of concern and challenges within the industry.

Learning and Skills Expansion: Expand your professional skills and knowledge through information and educational resources provided by CFBA. Demonstrate leadership and stay ahead of the curve in the ever-evolving farm building sector.
